Full stack developer working across the JavaScript and PHP ecosystems. I design, build and ship production web applications end to end, from database schema and REST APIs to accessible, animated interfaces.

EXPERIENCE

Full Stack Developer (Full-time, 1 month) Oct 2026 - Present
AgoraVita | Toulouse, France

Full Stack Developer (Apprenticeship, 4 years and 3 months) Jul 2022 - Oct 2026
AgoraVita | Toulouse, France
Production of websites in Nuxt, Laravel, and Wordpress. Corrective maintenance with the role of technical referent on critical production systems. Structuring projects: repository merging, encoding migration, architecture, project park containerization. Industrialization of team work and implementation of PHP version upgrade procedures: time for these operations reduced by three.

IT Technician Intern (Internship, 1 month) Dec 2017
ATS Ticketing | Sarlat-la-Canéda, France
Observation internship at a managed services and software development company, which sparked my interest in development and more broadly in IT.
